

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-33 (CANCELLED):

34 (CURRENTLY AMENDED): A rinsing method comprising:

a first step for accommodating an article, to be rinsed, into a second container which is disposed inside a first container;

a second step for introducing an oxygen gas or an ozone gas into the second container;

a third step for irradiating the article with ultraviolet rays from a light source disposed inside the first container but outside the second container; and

a fourth step for introducing a nitrogen gas into the second container and ~~stopping~~ introduction of exhausting the oxygen gas or ozone gas in the second container, to exchange an ambience of the second container.

35 (CURRENTLY AMENDED): A rinsing method according to claim 34, wherein the second container has a clearance through the first container, wherein the second container is maintained at an ambience different from that of the first container and is kept at an internal pressure higher than that of the first container in the second step, and wherein the ~~rinsing~~ oxygen gas or ozone gas in the second container is discharged into the first container through the clearance ~~while a gas in the first container is exhausted~~ at the fourth step.

Amendment dated July 10, 2007

In reply to Final Office Action dated April 11, 2007

36 (PREVIOUSLY PRESENTED): A rinsing method according to claim 34, wherein the article is a light transmission type optional element.

37 (PREVIOUSLY PRESENTED): A rinsing method according to claim 34, wherein the article is made of one of quartz and fluorite, and wherein the article is an optical element adapted to be used with a wavelength region of 200 nm or shorter.
